

NOTICE OF STREET RESURFACING

FROM: City of San Ramon, Engineering Services Department

PLANNED DATES: August through October, 2015

HOURS: Generally, 8:00 AM to 5:00 PM (unless otherwise posted)

LOCATIONS: Hat Creek Court and Fiddle Creek Place

HOW YOU WILL BE AFFECTED:

Starting next week on separate occasions during the next 10-11 weeks, road crews under contract with the City of San Ramon will carry out resurfacing operations on your street that may affect your normal parking and driving habits. "No Parking" signs will be posted at least two days in advance of each work day to notify you of planned dates of construction. On those dates, construction crews may appear at any time. Therefore, you should make sure that your car is not parked on the posted roadway between the hours shown on the sign.

You will have two options for parking:

- 1) Park in Driveway or Garage
You may choose to park in your garage or driveway, but you must expect possible delays and/or rough, difficult driving surfaces. Delays are uncommon, and when they occur, are usually less than 10-15 minutes. However, if crews encounter difficulties immediately in front of your driveway, there is a slight risk of delays reaching 1-2 hours. Most people who choose this option experience little or no inconvenience.
- 2) Park on Nearby Street Not Designated for Construction on the Same Day
If you cannot afford to be delayed, or if you object to driving under adverse road conditions, you should plan on parking on another nearby street not posted for work, and walk between your house and your car. Unfortunately, due to many unforeseen conflicts that occur routinely, we cannot guarantee that the work will occur on the date scheduled. If you need assistance, or have a conflict with the work, you can telephone 973-2670 and leave a message with the time and date you'll need help.

IMPACT ON OTHER SERVICES (GARBAGE PICK-UP, MAIL, ETC.):

You should not expect any change in scheduled dates for delivery or pick-up services (mail, garbage collection, etc.) Although delivery times may change, dates will not be affected. Residents will be notified by flyer of any exceptions.

Thank you for your patience and cooperation!

(MORE INFORMATION ON REVERSE SIDE)

ABOUT THE CONSTRUCTION:

RGW CONSTRUCTION, INC. of Livermore will be the general contractor responsible for the work.

THE STEPS INVOLVED ARE LISTED BELOW:

No.	Operation	Description	Impacts
1.	Roadway Preparation	Sign Placement. Lowering of utility structures to prepare for grinding.	Low Risk of Delays
2.	Grinding	A large grinding machine will appear that grinds the pavement to a specified depth so that the new pavement will be even with the adjacent gutter surfaces.	Noise, Dust, uneven surfaces. Low Risk of Delays
3.	Paving	Placement and compaction of hot asphalt concrete. The hot mix is delivered by trucks, spread with a paving machine, and compacted with heavy rollers.	Noise, Dust, Odors, Uneven Surfaces. High Risk of Delays
4.	Utility Adjustments	Adjustment of manholes or valve covers to match the level of the new pavement.	Noise, Dust. Low Risk of Delays
5.	Pavement Markings	New pavement markers are glued.	Odors. Low Risk of Delays

✓PLAN AHEAD

You will be reminded in advance before every workday that your car needs to be removed from the street.

✓DON'T PANIC!

All problems can be solved! Most problems are easily and quickly resolved. If you see a problem that requires immediate attention, please call 973-2670.

✓SPECIAL ASSISTANCE AVAILABLE

If you are disabled, have children, or otherwise need special transportation assistance, you can call 973-2670 and leave a message explaining the time and day you will need help. A City representative will assist you to your vehicle, or will provide other satisfactory transportation arrangements.

If you own a fax machine, you can request to have periodic broadcast, fax schedule updates, transmitted directly to your fax machine. Please fax the name and fax number to 838-3937.

TIPS TO MINIMIZE INCONVENIENCE

✓WATCH FOR SIGNS

Information about parking restrictions and planned work days will be posted on "NO PARKING" signs in advance of each construction work day.

✓AVOID THE CONSTRUCTION AS MUCH AS POSSIBLE

Plan on avoiding the pavement as much as possible during workdays. Watch for fresh tar, debris, equipment, workmen and other nuisances and hazards.

✓BE PATIENT

A certain amount of noise, debris, and inconvenience is unavoidable. Also, crews are often delayed due to unforeseeable problems. However, with your cooperation, we believe these impacts can be minimized.

Questions or Problems? Please call San Ramon Engineering Services Department at 973-2670.
